

Litigation Support

In every legal or business dispute, there is much at stake. The longer the judicial contest, the more tedious and costly it can be. Whether you're a defendant or plaintiff, our team of forensic accountants and business valuation experts can assist you and your counsel throughout every

phase of litigation. As part of a litigation support engagement, we will engage in fact-gathering, conduct thorough analysis, deliver credible findings, and provide expert testimony, for a more efficient resolution.

PHASE I

Coordination with Counsel

Our first step is to launch a Discovery phase, coordinating with counsel to establish goals for the support engagement, pinpoint interrogatories, and collect the necessary documents for effective review and analysis.

IN THIS PHASE, WE WILL:

- › Review court documents, including legal complaints & subpoenas
- › Conduct a brainstorming session with legal and advisory teams

PHASE II

Issue Findings

Once the proper financial records have been collected and analyzed, and interviews with key stakeholders have been conducted, we will then compile and draft a report of our findings - the story behind the numbers and the facts.

IN THIS PHASE, WE WILL:

- › Analyze Financial Records
- › Interview Key People
- › Draft Report of Findings

PHASE III

Depositions and Testimony

In this phase, we work in concert with counsel to prepare necessary strategies for anticipated lines of questioning during deposition and trial, as well as articulating your position with expert testimony.

THIS PHASE INCLUDES:

- › Preparation for Depositions/Testimony/Trial
- › Testify at Deposition/Court/Trial

We know
that your business
is not just your
business – *it's your
life's work.*
